

IRIS & PUPILLARY SIGNS, 3RD EDITION
- MODERN IRIDOLOGY

JOHN ANDREWS

May 2008

Iris & Pupillary Signs, 3rd Edition – Modern Iridology has expanded enormously on previous content and included additional information, new research and over ten exciting new chapters resulting in one of the most comprehensive, extensive and practical compendiums of iris markings, pupillary dynamics and inner pupillary border signs available to date in the English language.

The book is accompanied with a full colour *Gallery of Iris Signs* Instructional CD to assist in identification, study and practice. Indeed, this critically-acclaimed tome, affectionately known as “The Yellow Book”; is user –friendly and ensures a comfortable reference point for the Iridology:

- Student
- Practitioner
- Course Provider
- Researcher

Many Iridology training courses from around the world have adopted *Iris & Pupillary Signs* as their primary course textbook of choice. If you are serious about the accuracy of your Iridology practice and analysis then this book is essential and will prove to be an invaluable tool and eternal reference source.

This content of this book is based on the amalgamation of classical and new Iridology work. It based on extensive clinical experience and groundbreaking research, which combine to provide accuracy and clarity within Modern Iridology.

The author is John Andrews in practice in East Yorkshire, England.

He is also the author of the internationally acclaimed titles such as *Immunology & Iridology*, *Emotional Approaches in Iridology*, *Endocrinology & Iridology*, *Iris & Pupillary Signs 1st & 2nd Editions*, *New Topography – Embryology & Iridology* plus over 20 research papers, 20 Instructional CDs and is the Editor of the *Advanced Iridology Research Journal*.

John is also a lecturer held in high regard across the world for the informative and inspirational content of his presentations and seminars. He holds a regular lecture schedule that covers over ten countries and four continents, including professional training & seminars throughout the UK.

His contribution to the modern understanding of Iridology has been recognised with the Ignatz Von Peczely Award In Brazil in 2004 for his Scientific and Innovative Contribution to the Global Advancement of Iridology, by the Italian Association of Iridologists in 2005 for his pioneering research in Iridology and most recently by the International Iridology Practitioners' Association in the USA as *Iridologist of the Year 2007*.
